

Preparedness Update

As you prepare to resume semi-normal patient care, we've taken the following steps to maintain continued supply of the critical products you need:

Employee Health Screening

- Temperature scanning
- Masking procedures
- Updating workflows to maintain social distancing

Logistics

- Adapting to changes in air shipments
- Land and sea shipments continue as normal

Product Availability

Our inventory remains healthy and fully stocked to meet market demand.

COVID-19 Customer Resources

- 24/7 clinical guidance is always available by calling Medical Affairs at **1-800-854-6851**
- Business continuity overview

Raw Materials

Suppliers are aware of their critical role in patient care through the raw materials they supply B. Braun Interventional Systems. We have seen no disruption in supplies.
